Mounting Instructions for CEILING DRYER LIFT

Following parts are needed for assembly:

- 2x E-Z Toggle
- 2x M5
- 2x M5
- 2x
- 1x
- 2x 9.5m

professional installation recommended Montage professionnel recommandé

**Instructions:**
please follow steps ① to ⑩

① Push square aluminium profile (a) into connecting part (b)
2. Release black lever (c) and push both slide parts (d) with holes pointing downwards into centre part.

3. Mark holes on the ceiling for drilling holes (Distance 113cm 44.48 inches apart)

4. Using a #2 Phillips screwdriver, drill the E-Z Toggle anchor into the drywall until the head of the anchor is seated flush.

5. To "set" the clamp behind the drywall, place the mounting screw into the anchor and push or tap firmly until approximately 1" of screw is protruding (do not rotate). Then remove the screw.

6. Place ceiling holder (e) over E-Z toggle, insert screw with washer and continue to turn until fastened tightly.

7. Mount joint profile (f) onto ceiling holder (e).
8. Lower ceiling dryer.

9. Insert washing lines on both sides with the length you desire (max. 184cm.) and fix with knot at the ends (g).

10. Pull the pulling line to raise ceiling dryer and insert both knots (h) in pulling line into clamp profile (k) of ceiling dryer.

**ATTENTION!** Do not cut pulling line. You may lay it over working line to have it out of the way.

**Maximum product weight**  
Poids maximal autorisé  
18 pounds (8.2kg)
